This course participates in the **Bookstore's Interactive Digital Access Program (IDAP)**.

- Materials are delivered digitally by the first day of class.
 - The IDAP charge will appear on your MyUH account unless you opt out.
 - Opt-out details are provided in the bookstore's IDAP email.
-

Course Description & Objectives

This course develops students' understanding of the global economic and financial environment of business. It introduces trade and international finance theory and applies it to real-world case studies across global regions.

Topics include:

- Basic demand and supply analysis in open economies
- Comparative advantage and factor endowments
- Scale economies, imperfect competition, and trade
- Growth and trade
- Tariffs, non-tariff barriers, and protectionism
- Trade blocs and preferential trade agreements
- Trade and the environment
- Multinationals, migration, and international capital flows

By the end of the course, you will be able to apply core trade models to evaluate policies, disputes, and their distributional consequences.

About the Instructor

Adam holds an MBA in Finance from The Wharton School of the University of Pennsylvania and previously held the Chartered Financial Analyst (CFA) designation. He served as Chief Investment Officer at Springline Capital (BVI) and founded Greenshoot.org, a disaster relief technology company. He also worked as a trader and market-maker at Barclays Capital and Lehman Brothers in New York, where his desk managed all U.S.-listed Exchange Traded Funds (ETFs). Before his MBA, Adam was a Marketing Manager at Advent Software specializing in hedge funds and offshore fund administrators.

Grading

Component	Weight
Attendance & Participation	10%
Weekly Homework (MH Connect)	20%
Group Project (Online Retailing)	20%
Midterm Exam	25%
Final Exam	25%
Total	100%

Grades are rounded up to the nearest whole number. Adjustments are only made for documented scoring errors.

Attendance & Participation

Attendance will be recorded and contributes to your grade.

Homework

- Assigned weekly via **MH Connect**.
 - Due Fridays by midnight.
-

Group Project (Online Retailing)

- Teams of 3–4 students.
 - Two short presentations (5 minutes each) in the final weeks of class.
 - Task: Select a product to sell online in the U.S., source from a non-U.S. supplier, and analyze unit economics, competitors, and demand.
 - Grade breakdown: 12.5% presentation, 2.5% peer evaluation.
-

Examinations

Midterm & Final Exam on MH Connect.

Make-up exams are only considered for legitimate, documented circumstances (serious illness, family emergency). Approval must be obtained in advance.

AI Use Policy (Undergrad Context)

Students are encouraged to explore AI tools to enhance learning and professional decision-making. Acceptable uses include:

- **Knowledge Enhancement:** Use AI to clarify theory or extend readings.
- **Research Support:** Gather data, statistics, and examples for assignments.
- **Critical Thinking:** Test your arguments against counterarguments generated by AI.
- **Problem-Solving:** Simulate case scenarios and brainstorm managerial responses.
- **Professional Skills:** Practice clear, concise communication in prompts and outputs.

Requirements:

- Log all AI use in the Prompt Log.
- Verify outputs against trusted sources.
- Treat AI as a supplement — not a substitute — for your own analysis.

Campus Policies

- **Students with Disabilities:** Contact the KOKUA Program (Student Services Center, Room 13; 956-7511; <http://www.hawaii.edu/kokua/>).

- **Academic Honesty:** UH Mānoa has a zero-tolerance policy for plagiarism or cheating. Definitions and examples are detailed in the UH Student Conduct Code (<http://www.hawaii.edu/student/conduct>).
